Flip Battery to Change Functions

STEADY-ON

FLASHING

The Guardian is the lightest, brightest toughest light in its class. It features a compact design that is waterproof, extremely resistant to impact and visible from all directions (omnidirectional). The light has two operating modes: Flashing and Steady-On. There are a variety of accessories that can be used to attach the Guardian to users or their equipment.

### BATTERY DURATION\*

<u>Function</u>	<u>Duration</u> (For all colors)
Flashing	~240 Hours
Steady-On	~100 Hours

\*For indication purposes only.  
Duration may vary with temperature.

Comes with Velcro Strap and MOLLE Compatible Belt Clip

### Available in 9 Colors & IR

# Guardian Dual Function

## Crowd Control Officer Marker System

Law enforcement units can distinguish each other within crowd control operations using a system built around Guardian marker lights. Different output colors can be used to signify various functions or units. Unit leaders can be further distinguished by incorporating double Guardian lights and patch holders.

### Single Guardian Patch Holder P/N: 49012

Single omnidirectional Guardian marker light attached to velcro patch-holder. Comes with button to be clipped onto back of vest or hood. Lens color for Guardian is user definable upon ordering. Patch not included.\*

### Double Guardian Patch Holder P/N: 49013

Dual omnidirectional Guardian marker lights attached to velcro patch-holder. Comes with button to be clipped onto back of vest or hood. Lens colors for Guardians are user definable upon ordering. Patch not included.\*

### Helmet Attachment P/N: 49002

These simple two sided Velcro attachments allow for easy instalment onto the back of helmets for identification and crowd control coordination.

\*Custom patches available with reflective print under
